Claim Makers work exclusively on behalf of the policyholder to ensure that they obtain the highest possible settlement and are able to conduct complete and total remediation of their damages.

When a peril occurs, insurance companies appoint loss adjusters whose purpose is to review the damages and their circumstance; adjusting the claim presented to them by the policyholder and deciding what will be paid for — and what will not. Claim Makers know and understand the fine print of insurance policies. They handle the entire process on behalf of their clients; collecting evidence, surveying the damages, filing the claim, and negotiating with the insurance company and loss adjusters in order to secure a settlement that will compensate the policyholder for the loss in its entirety.

Domazur Luxury Home

A purchase of a house or an apartment in a foreign country is a complex matter. Getting an understanding of various areas and alternatives available on the market; trying to get a notion of what is "the correct market price"; having a notary who finds time for Your case, and ideally who speaks Your language; setting up the structure in the way which is most efficient from tax point of view; having a realistic evaluation of cost and time of refurbishment and administration issues involved; help with setting up the bank accounts — those are just a few aspects with which You'll be dealing during the search process.

And when You finally complete the purchase and collect the keys — the "the hassle" doesn't end, You need to set up the utility services, pay local taxes, know where to look for the furniture, where to repair cars at "local" prices, how to enroll children to school if You moving permanently, where to seek medical advice etc.

At Domazur we understand all those needs, and we have helped many clients to make the search and buying process as well as the subsequent settling in, as painless and time/cost efficient as possible. They are happy to testify to our professionalism, "can do" attitude, our extensive network of local contacts, honesty and last but not least — our inexhaustible (nearly) patience.
